The Daily Oregonian.

MONDAY MORNING, APRIL 5, 1869.

CITY.

Money Market.

April 3. Legal Tender rates..... 77½@77½
New York Gold Quotations..... 135

FROM VANCOUVER.—The following items are from the *Register* of Saturday. The Vancouver Water Company are commencing to lay down their street mains. Mr. Louis Love is putting up a new mill for carding and spinning wool.....Efforts are being made in certain quarters to secure the removal of military headquarters from Portland to the Cullee.....A number of people who have been buried in the military cemetery near town, talk of erecting a fountain in the cemetery.. Capt. Ainsworth and R. R. Thompson lately visited the iron lands thirty miles back of St. Helens. There is quite an extensive tract owned by the company of which they are members.....S. W. Beall, the County Assessor, has nearly finished his annual assessment of property in the county. The total value of assessable property in the county in the neighborhood of seven hundred thousand dollars. The number of voters; about seven hundred. The District Court will sit while here on the 10th inst. A large number of civil causes, a good many of which will be strongly litigated, are docketed for trial. In addition to these, several criminal cases from Cowlitz county have been sent to the grand jury, and several indictments for violations of the internal revenue law will be tried, which were presented at the last term of court.....At a regular meeting of the congregation of St. Luke's Episcopal Church, held in this town, last Monday, the following were elected for the ensuing year: J. M. Fletcher, Esq., and Lieut. Col. Johnson, U. S. A., Wardens; Messrs. J. Crawford, H. G. Struve, Jas. Davidson, C. H. Wilson, J. M. Wintler, Gen. W. Durgin, Louis Myers and John Eddings, Vestrymen; J. M. Fletcher, Treasurer, and John Eddings, Secretary.

UNION CITY ITEMS.—The *Enterprise* of Saturday, says: An entertainment will be given by "our young ladies," at the Court House in this place, on Wednesday evening next, for the Methodist Episcopal Sabbath School.....At the Annual Parish Meeting of St. Paul's Church, of this city, held on Monday evening last, the following men were elected to act as vestrymen for the ensuing year: John Myers, Robert Caufield, Ben. D. Harris, E. D. Kelly, J. R. Ralston, Reuben Smith and H. L. Kelly were appointed Wardens; Robert Caufield was appointed Treasurer and E. D. Kelly, Secretary.....Division No. 3, Sons of Temperance, in this city, on Thursday evening last, A. J. Marshall, W. P.; D. Caufield, W. A.; D. C. Ireland, R. S.; H. Straight, Jr. Assistant; W. B. Blanchard, F. S.; J. M. Bacon, Treasurer; J. B. Walsh, C.; J. H. Sheppard, Conductor; Father Ward, Assistant; G. F. Smith, Sentinel. The Division has entered its second term with the prospects of doing good in the community, in concert with the Temple.....Chapman is tearing away one of the historical marks of Main street in this city, being the monument adjacent to his private residence. This house was built in the "White Pine" days of Oregon City—was worth $150 per thousand feet, to get at that price. It was once occupied by Judge Deady, as a law office—has been the scene of many mercantile transactions, but of late years was occupied by Mr. Broughton, as a joiner and cabinet shop.

GONE WILD.—A gentleman of East Portland informs us that a number of that burg have gone wild about the prices of lots and blocks, and that nothing is talked of, by day or dream, but railroad, depot and town lots. This excitement has grown, within a few days, out of sales by railroad magnates, of several tracts of land in localities favoring the town. We hear that Holladay has, within the last week, bought a part of Clinton's Point; a tract of Mr. Stephens and of Mr. Allen, while negotiations are pending with one or two others for other tracts. These proceedings had the effect to convince every land-owner that the dead-wood up from one to twenty generations, and presto, up go the prices of dirt to heaven.

FOR CALIFORNIA.—The steamship *Continental*, of the San Francisco at five P. M. Saturday, carried the following named passengers: S Mattingly, Sarah Butler, W Nathan and wife, E Bumbarker, J W Wells, W Pinkerton, Mrs F Allno, Mrs Young, Miss McCurdy, T S Winston, Miss E Rouse, Mrs J Judson, C E Johnston, Lieut Fisher, Mrs W K Ish, T A Davis, Col H C Hodges, Wm Rothenbush, F C Ewelin, C P Crow, F Clark, James Sharp, A Franks, J N Squires, E Wells, Fargo & Co's messenger) and ten in the steerage.

COURT, DEADY, J.—On Saturday morning Judge Deady decided to refuse the application of Judge Pratt and others, assessors, for a habeas corpus, and held that the act of Congress conferring power on the Posse to apprehend and commit delinquents was constitutional. That the act did not confer any power on State Courts, but to require it to perform this duty for the United States officers in the discharge of the office they held. The prisoners were remanded to prison, to be delivered to the Sheriff of Multnomah county.

SCHOOL EXAMINATIONS.—The Unionist of yesterday says: "The examination at the close of the second term of the year of the Wallamet University will be commenced this morning, in the recitation rooms of the city. The exercises will be continued each day until Thursday noon. At which time the graduating exercises will be commenced in the chapel. Addresses will be delivered and appropriate pieces rendered, to be diversified with instrumental and vocal music.

ARRIVAL OF THE "GEO. S. WRIGHT."—The steamer *Geo. S. Wright*, Langdon, Commander, arrived from Victoria and Puget Sound at A. M. yesterday. Following is her report and passenger list: M. transits.—Left Victoria April 2d, at 8 A. M.; arrived at Astoria Saturday, April 3d, at 2 P. M.; arrived at Portland April 4th at 7 A. M. Passengers.—M. Burns, D. McFadden, Mr. Mr. Rogers, John Fenn, E. A. Thomas, E. Richards, Mr. Hodgen, Mr. Hotson, R. M. Comb, John C. Kelly.

GROUNDING OF PARK STEAMER.—The effect of street improvements upon the value of adjacent property, in this city, is well illustrated by the recent real estate transactions in the vicinity of North Park street. Since the commencement of improvements on that street, we hear that a dozen or a dozen men have invested in lots with the view of erecting residences, and prices have risen a very considerable per cent.

PREPARED COFFEE.—Mr. J. F. Jones, the proprietor of the Star Coffee and Spice Mills, has done us the kindness of a generous package of his prepared coffee, as well as several other cookery things. Jones' Star Coffee has come to be as much a staple article as sugar or cured hams, and the demand for it has been large and steady that Mr. Jones has about all he can supply the retail dealers.

ILLNESS.—A letter has been received from Mr. Chas. Wellman of this city. He had reached Salt Lake overland, in thirty-one days, having been caught by the great storm about 15 days. He walked several miles through deep snows rather than wait with freezing his strength and constitution nearly impaired. He will return home immediately.

FROM THE SANDWICH ISLANDS.—The schooner *Yaxtle*, Master, arrived at 8 o'clock on Saturday evening from Honolulu. She made a fair run to the bar, but was detained eight days off the bar, for a pilot. She brings for Allen & Lewis 1,849 bags sugar and 100 bags coffee, for McCraken, Merrill & Co. 1,577 half bbls sugar and 24 bags coffee.

FARES.—We are informed, says the Commercial, that an arrangement has been effected by John Gates with the Oregon Steam Navigation Company, by which tickets will be sold at reduced rates, at the office of O. S. N. Co., for through passage from Portland to Lake City, Bear river, Ogden, Boise City, Idaho City, Baker City, Uniontown and La Grande.

ARRIVAL OF THE "QUEEN TELFAIR."—The steamer *Queen Telfair*, Captain Wilson, arrived from Victoria and Puget Sound at half past two o'clock yesterday morning. The purser informs us that he has no memoranda and passenger list in the *Herald* office with a request that it should be furnished to the purser, but we have not received it.

NEW STAGE LINE TO OLYMPIA.—Mr. Isidore Sernier has put in operation the new stage line from Cowlitz landing to Olympia. One or more of the boats plying on the Columbia will connect with the line whenever the stage of water in the Cowlitz river will permit them to ascend so high as the Landing.

THE FALKENBURG DESERTERS.—The four seamen who had been in custody the greater part of last week as deserters from the bark *Falkenburg*, were taken on board that vessel Saturday evening, to be taken to Astoria, where the bark was awaiting the arrival of Captain Ahlers.

AT VANCOUVER.—The *Register* mentions the concert given at Vancouver last Thursday evening, by Miss Minnie Minthorn, in very complimentary terms, and announces that the entertainment will be repeated this evening, 14th inst.

MARRIED.—We learn that the West Side Rail Road Co. have discharged all their employees from subletting out work, and stopped all work for the present. We are not informed as to the cause of the suspension, nor how long it is to continue.

FROM EAST.—Colonel H. C. Hodges, formerly Chief Clerk of this Department, sailed by the steamer Ajax Saturday evening, under orders to report for duty as Chief Quartermaster of the Department of the Columbia.

TARGET PRACTICE.—The Pioneer club will be out for practice at 4 o'clock this afternoon at East Portland. Every member is invited to participate.

SAILED.—The *Okanagan* will take the schooner *Alaska* in tow this morning for Astoria. The latter is loaded with piles, lumber and shingles, for Honolulu.

STEAMER ROSEBURG AND FREEPORT.—The steamer *Ranger*, after undergoing repairs, will resume her regular trips, to-day, to the Cowlitz river.

FREIGHT.—The *Geo. S. Wright* brought from Victoria, and Puget Sound, 1,000 tons salt to McCraken, Merrill & Co.

BOYS ARRESTED.—Several boys were arrested on Saturday and locked up for throwing stones at a Chinaman.

SAN FRANCISCO.—The steamship *Ajax*, Bolles, commander, sailed from San Francisco for Portland, on Saturday afternoon.

THANKS.—Purser Tarbell, of the *George S. Wright*, has our thanks for late files of Victoria papers.

THE PARISH FESTIVAL.—The Ladies of Trinity Parish propose to hold a Festival at the vestry room, corner of Second and Oak street, on Wednesday evening next, April 7th. The public are respectfully invited to attend. Admission, 25 cents.

The West

There are parties at Washington asking Congress to declare Vallejo, Cal., a port of entry.

The San Francisco morning papers now reach Sacramento by noon of the day of publication.

The average rainfall at Sacramento is about 17 inches. So far this season only 14 inches have fallen.

Enterprising thieves at Nevada fix steal doors and window sashes from houses. We have not heard whether any hot stoves are missing.

The aggregate weight of ten passengers in a California stage recently was $1,900 pounds. Good day for heavy weights.

British Columbia imported during the year 1868 two thousand bushels cereals, and three thousand five hundred head of cattle.

It is stated that the White Pines cannot wear moustaches on account of the bad whiskey which is sold in that place which burns them off.

Forty five thousand dollars were paid to the Collector of Customs in San Francisco one day recently, being the proceeds of the sale of confiscated opium.

The "elevator" at Vallejo, Cal., will have a capacity of about 200,000 bushels, says the *Record*, and will take grain from coasting vessels as well as from cars.

The Savage mine, on the Comstock ledge, Nevada, yields between 1,000 and 1,400 tons of ore per week, averaging about $25 per ton, and employing about 170 men daily.

Telegraphic dispatches state that money is "tight" in San Francisco, which is owing no doubt to the fact that such an immense sum is in the Oregon State sale, at Salem.

The Union Pacific Railroad Company are now prepared to sell lots in the new town of "Bonneville," located seven miles north of Ogden on the line of the Union Pacific road.

The main shaft of the Bullion mine has now attained a depth of 1,360 feet, being the greatest depth yet reached on the Comstock lode. The ground is dry and the air very hot.

The California tide lands will soon be put upon the market, in compliance with the law of 1867-8. The Commissioners have been waiting on the engineers and the maps are now ready and have been filed in the State offices.

Wm. McCauley, one of the original locators of the richest mine at White Pine, the Eberhardt, was a minor, and he sold his interest therein when he was still under age. He now claims that the sale was illegal, and sues for the recovery of his interest.

The Carson (Nev.) *Appeal* says there are a dozen or more of camels running at large on the Carson, near the old Overland route; and many a traveler and teamster can bear testimony that their numbers have been increased from year to year by births.

A Chicago paper having suggested that three-fourths of the postoffices should be kept by women, the Idaho *Statesman* remarks: "That may be, and true of the old States; but there should be more women to the acre in this country before they expand their business much."

The Victoria *Colonist* says the aborigines thereabouts have plenty of muscle, and ought to be taught to use it to cultivate land and produce wealth in other ways. The *Colonist* has the right idea when it says that the true way to civilize the natives is to teach them to work.

The result of the geological survey, under Professor Hayden, of the coal fields of Wyoming and Colorado, is being published at Washington. These coal fields cover thousands of acres, and are from five to fifteen feet in thickness. The Union Pacific Railroad runs through the best of them.

By Custom returns it appears that 55 tons of butter, valued at $40,000, were imported into Victoria during the year 1868. The British Columbia people are about as improvident as the Oregonians. All the butter offered in this market during the last four months has been the imported article.

Says the Vancouver *Register*: "Dr. J. R. Bailey, of Corvallis, Oregon, who is Supervisor of Internal Revenue, sends his son to the Holy Angels' College in this city." We are pleased to learn that the young man is enjoying advantages for moral culture which evidently were never possessed by his paternal ancestor.

It seems that the application of the Western Union Telegraph Company for an injunction to prevent the Atlantic and Pacific States Telegraph Company from erecting their wires in the State of Nevada, has been denied by the Court. A like decision was rendered in this State some months since. So the field is open for competition.

Bunster's flouring mill at Victoria is to be shipped to California. The *Colonist* says: The duties upon wheat and flour relatively do not admit of a sufficient margin for profit in manufacturing flour in the Colony. Imported wheat is used, and the prospects for a sufficient supply of wheat from Colonial farmers on this side of the Cascades seems yet too remote to encourage the retention of the mill in the Colony.

The Deputy Collector of Customs for Puget Sound District informs the public that "in accordance with the laws now in force and special instructions from the Department at Washington, *everything* brought into the District is subject to the payment of duties, except what has been in actual use abroad by the party immediately concerned." This is for the benefit of the traveling public in that quarter.

The Virginia (Nev.) *Enterprise* of the 24th ult. says: For the past week from thirty to forty cars have been loaded daily at Verdi with railroad iron, spikes, etc., for the front. This will build about five miles per day, and there is enough now at Verdi to complete the road. Railroad men, well informed on the subject, say that the Central Pacific and Union Pacific will "lap" each other by April 10th. As to whether or not the connection will be made is not certain.

The San Francisco *Call* says: Rev. A. L. Stone, the popular pastor of the First Congregational Church in this city, received by telegraph, the other day, a call to the pastorate of one of the most influential Presbyterian Churches in Chicago. The call was an urgent one, and, in the Chicago fashion of directness, meant business, the salary being named at $7,000. The people attached to the First Church will be glad to know that Dr. Stone peremptorily declined the call.

The Merced (Cal.) *Herald* says: "A monster egg is on exhibition at the Post Office variety store, in this place, which was laid by a hen owned by Mr. S. K. Spear, a resident of this valley. The egg measures eleven inches around its largest circumference, or lengthwise, and eight and a half inches around laterally. Proof positive exists that the egg was laid by a hen of the Shanghai species, and we believe that it is of the greatest dimensions of any ever yet reported.

The Victoria people are discussing the girl-im migration question. The *Colonist* wants the "girl of the period" provided for in this way: "We still hold to our original views on the subject, viz: that $150 will be required for each adult immigrant, and of this sum the Government should pay $50, the applicant here, paying $100. $30 on receipt by the mercantile firm in this city of advice of the vessel's sailing with the immigrant on board, and the remaining $50 on the arrival out of the ship.

A Victoria paper reports that, "About three weeks ago a lady and gentleman were walking along the beach directly in front of Beacon Hill when the lady observed something bright among the washed up sand in the crevice of a rock covered at high tide by the waters of the Straits. The gentleman examined the sand, took therefrom a few pieces of the shining substance and carried it to a jeweler in town here who pronounced the pieces to be gold, of the value of 75 cents." The *Colonist* advises the Victorians to give beach mining a trial.

There is an orange grove of 500 trees at Pilatka, Florida, which yields a tremendous profit. It is owned by Northern men, who paid $8,000 for 280 acres, sold off half at a good price, and in the first year cleared the original cost of the whole place from the fruit raised upon it.

DELICIOUSLY MEDICINAL.—This is the universal verdict pronounced upon PLANTATION BITTERS by all who have tried them. The well known health promoting ingredients, from which they are made, and their invaluable merits as a remedy for indigestion and all its consequent ailments, and the preventive qualities against diseases arising from climatic changes, miasmatic influences and imperfect secretions, are so widely known and so honorably indorsed, that we trust no one will forego the advantages of their use.

NIGHT SCHOOL.—Mr. Fitzgerald has opened a Night School in the schoolhouse (up stairs) near the Catholic Church. For Terms—see the Teacher.

HYDROGEN.—When the announcement of the recent experiments of Professor Graham upon the metallic nature of hydrogen was made before the French Academy, M. Wurtz reminded that body that he discovered a compound of palladium and hydrogen twenty years ago. With other metals he failed, *except with palladium*, the chloride of which, treated with the same acid, gave a *hydrogenet of palladium*, in powder; but as it soon gave off the hydrogen, he neglected to record the fact.

Mrs. Drew has brought out "The Twelfth Night" at her theatre in Philadelphia, and Shakespeare has made a hit there as well as here. The *Bulletin* says: "It is an event worth chronicling and celebrating—this success of a comedy by Shakespeare in the city of Philadelphia and in the year 1869. It is delightful to look on its authorship as well as its performance. For the people that go to see and hear Shakespeare are quite a different set from those that go nightly to see bigamy, adultery, murder, arson, railroad accidents, and the other stunning things of the modern playmakers."

DR. J. H. HATCH,
(Late Mack & Hatch,)
DENTIST.

The patronage of those desiring FIRST-CLASS OPERATIONS respectfully solicited.
Satisfaction in all cases guaranteed.
NITROUS OXIDE administered for the Painless Extraction of Teeth.
OFFICE—Corner of Washington and Front Sts. Entrance on Washington, Portland, Oregon.
nl8dawtf

WILLIAM DAVIDSON,
Office, No. 64 Front Street,
Adjoining the Telegraph Office.....Portland, Oregon.
Special Collector of Claims.
Bonds, Promissory Notes, Book Accounts, and all other Claims, will be made a Specialty, and promptly Collected. jl3dawtf

HOMESTEAD LOTS FOR SALE.
PERFECT TITLES—LIBERAL TERMS.
Apply to DR. R. GLISAN,
mar31d2m Cor. Stark and Third streets.

TEETH EXTRACTED
By Dr. Richardson's Apparatus, Lately Improved by Dr. Koehler, with Ether Spray.
WILLIAM KOEHLER,
DENTIST.
OFFICE—Southwest corner Front and Yamhill streets, opposite E. J. Northrup & Co's Hardware Store.
I am now making, amongst other numerous styles of ARTIFICIAL TEETH, the improved Vulcanite Plates of Dr. G. W. Cool's Patent, patented Dec 3d, 1867, the improvement of which consists in lining the entire concave surface with fine gold; it not only makes the plate double as strong but is lighter than the common Vulcanite Plate. It also can by it be made considerably thinner and lighter, whereas the price is but little above that for common Plates. Call and see specimens.
N. B.—Dentists wishing to secure the office right for Dr G. W. Cool's Improved Vulcanite Plates, can have it made out to them by applying to the office.
N. B.—To strangers I would say, that a constantly increasing Dental Practice for the last five years in this city, will be a sufficient guarantee for them to receive a First-Class and Finished Piece of Work. Numerous testimonials to the same can be given at the office.
Dental Consultations Free of Charge to all.

WALTHAM
WATCHES.
The extensive use of these watches for the last fifteen years by Railway Conductors, Engineers and Expressmen, the most exacting of watch wearers, has thoroughly demonstrated the strength, steadiness, durability and accuracy of the Waltham Watch. To satisfy that class in all those respects, is to decide the question as to the real value of these timekeepers.
The superior organization and great extent of the Company's Works at Waltham, enable them to produce watches, COMBINING THE BEST AND LATEST IMPROVEMENTS, and at a price which renders competition futile, and those who buy any other watch, merely pay from 25 to 50 per cent more for their watches than is necessary.
For sale by all dealers.
No watches retailed by the Company.

HOAGLAND'S
NEW PATENT SHAFT COUPLING!
W. E. COOPER
HAS PURCHASED THE RIGHT FOR THIS County of the above Patent, and will hereafter use it in the construction of all the Vehicles manufactured at his extensive
Carriage Factory,
Corner of Second and Morrison Streets.
He respectfully refers to the following
CARD.
Having examined the New Patent Shaft Coupling, invented by H. B. Hoag and, we feel pleasure in informing the public that in our opinion it is the safest and best method of connecting shafts or tongues to all vehicles that has ever been used.
It fastens without bolt or screw, and is therefore, easily and speedily separated. It rests on Gutta Percha so as to be entirely free from the rattling sound which so often disturbs restless horses. It is easily changed so that the shafts or tongue may be detached in an instant and is convenient, safe and secure.
It is easy to change to the style of coupling any buggy or other vehicle now in use, and with small expense. We have come to the conclusion to use this new invention ourselves and recommend its use in all cases. We consider it far superior to the Brewster Patent, heretofore considered the best in use.

The Daily Oregonian.

ONDAY MORNING APRIL 5, 1869.

Pilot Matters

Masters of vessels complain with much earnestness, and, as it seems to us, with much show, of the negligence of the pilots at the Columbia river bar. A similar complaint is also made by shippers, whose goods are often delayed many days beyond the time their arrival is expected, by the waiting of vessels outside. For instance, the bark *Tasman* on her recent trip from New York was obliged to lay off the bar eleven days before she could get a pilot, and the *Forest King* which arrived here on Saturday from the Sandwich Islands waited outside eight days, though the weather most of the time was fine, and she finally came in without a pilot. She was quite near the bar several times before she came in, but saw nothing of the pilot boat until she got inside. These delays are very detrimental to the commerce of the Columbia river. The occasions are very rare when a stress of weather is such as to prevent vessels from crossing the bar, for a longer period than two or three days at a time. With a steam tug there would rarely be any delay at all. The interests of commerce demand that the pilots should be vigilant and energetic men. They ought always to be at their posts and ready for duty. It will not suffice for them to spend their time at Astoria, and once or twice a week, if they happen to wake up, sail lazily down towards the bar, providing the tide serves, and back again. The pilot boat should often go outside to ascertain if there are any vessels within sight desiring to come in. It is not so important a matter for our commerce that the "bars" at Astoria should be watched as that business on the bar at the mouth of the river should be attended to. It is just as easy to come into the Columbia river as to enter the harbor of New York. But if vessels are to be forever subjected to unreasonable delays, they will avoid the Columbia river like the very breath as heretofore. Indeed we may as well wake up at once to a realization of the fact that until we have *better regulations* at the mouth of the river our commercial affairs will always be in an unsatisfactory condition. We want a steam tug and must have it. Last fall a law was passed by the Legislature in the form and approved by the Governor, to provide for placing a tug on the bar, and money was appropriated to carry the act into effect; yet nothing has been heard of the matter since. It is claimed by some, we believe, that the act did not become a law; who knows anything about it? Perhaps the matter is in the same unsatisfactory and impracticable shape as almost everything else which was pushed by that boggling Legislature. The act also provided for a reduction of pilotage to the rate of two dollars per foot draft, for all deductions of vessels. The old rates are, however, still charged. Some of the wise men of the Legislature ought to give the public some explanation of these things.

The Democratic Press.

That "senile slinger of unsavory English," Jeremiah of the Salem *Press*, says in his paper of Saturday:

> We have no recollection of having seen an exhibition of partisan malignity and brutality that could begin to compare in atrocity with the comment of the OREGONIAN upon the reported death of Andrew Johnson. After remarking that "nobody cared whether he lived or died," it suggested, in language as coarse as could be selected, to express an infamous idea, that he probably died in a drunken debauch. These comments were made at a time when there was no reason to doubt the truth of the report of Mr. Johnson's death, and when the writer himself believed it to be true.

Of course the "veteran editor" knew he was lying when he wrote this. The telegraphic announcement of the death of Andrew Johnson was published in the OREGONIAN of March 30th. Not one word of editorial comment on the event appeared in that issue. The next day the telegraph contradicted the report, and we then remarked that it was a matter of little moment whether he was dead or not, and that the rumor of his death probably arose from the fact that he had been in a drunken debauch. These comments were *not* made "at a time when there was no reason to doubt the report of Mr. Johnson's death, and when the writer himself believed it to be true;" but they were made *after* the report was corrected, and for the reason that the writer knew it was not true. The "High Churchman" of the *Press* has therefore been lying, as usual.

The Yamhill *Courier* is protesting against the repudiation doctrines of the Portland *Herald*. The latter said, a few days ago

> An obscure professedly Democratic paper of less circulation and far less editorial ability than the McMinnville *Courier*, and which takes its cue from that paper on the finance question, sharing with it holy horror of repudiation, boldly asserts that it is honest and equitable to meet the obligations of the Government according to the terms of the contract, and classes any different position as theft and robbery.

Here is the *Courier's* rejoinder. The reader will understand that we print it *verbatim*:

> If governments may solemnly and legally repudiate one obligation, may they not with equal propriety repudiate another?
>
> If yes, why do you cry out against their overselling law?
>
> If no, why do you not dry up your cry for repudiation?

Bro. Brown, to whom you refer, is the ablest writer of the Democratic press of Oregon. You rank us above him. Can you not, then, take the advice of the two ablest editors of the State, and discuss these questions that would have a tendency to strengthen the only party that can restore law and order peace and prosperity to the State and the United States, instead of harping upon the worn out and shattered string of repudiation?

The *Herald* ought to rank as the first paper in the State, and would do so, if you would exercise a little more sound statesmanship, and bury your dust cause proclivities with the carcass of the dead rebellion.

If you want to but your brains out, pitch in, bro.

We are sorry for your folly, yet we presume you are like "the old gray hoss" "when you goes, you *goes*."

The editor of the *Herald*, having entirely exhausted his stock of knowledge, and disdaining to read to get ideas, is fain to go back to the stale and exploded story that the Congress of 1790, in its funding bill, paid the national debt by the advice and with the consent of Alexander Hamilton at only two-thirds of its nominal value." This is *dishonesty*, not ignorance; for some time ago we took the trouble to show him that no part of the old debt was repudiated, and that it was as large after it was funded as it was before. He has evidently commenced to travel back over the whole ground he has been traversing since he quit the position of "clerk in a sawmill." We believe that is the way Beriah puts it, for an editorial situation.

The impression prevails among the people, to some extent, at least, that all men who are active in promoting the interests of a political party are seekers after office, and that all business men who hold themselves aloof from active partizanship never hanker for public positions. So far as our observation extends large numbers of efficient politicians never ask for office, and are never put into office, mainly because they will not do for themselves what they will do for others

Small Notes.

Twice already Rev Joseph Smith, Congressman from Oregon, has been heard of On the first occasion he had sore eyes and his visual organs, like those of one of Shakspeare's first-class comedy characters, were "purging thick amber and plum-tree gum." Again we have startling intelligence from him He writes to the *Herald* a thrilling letter about garden seeds, informing his constituents that he will try to furnish them some next spring. So we suppose the Democracy of Long Tom and Santiam Forks will depend on Rev Joseph Smith for their next year's supply of seed beans and tobacco plants.

A distinguished pomologist in an Eastern State has given it as his opinion that the apple-trees of the country are slowly dying out and that nothing will save them For several years past the yield in all the Northern States has been insignificant, and last summer small apples were sold in New York for ten cents each. This may be measurably true in portions of the country, but the decay of Oregon orchards is due entirely to neglect That, and nothing more. We'll warrant plenty of apples in Oregon *if the same pains is taken* to keep orchards in good condition which was expended in planting them a dozen or fifteen years ago.

The only objection we have to urge against the appointment of Gen. Longstreet to an important office in the Customs at New Orleans is that urged in the Senate, viz: That there are Union soldiers who deserve the good positions of this description which the country has to give. Longstreet's hearty and unreserved submission to all the decisions which resulted from the rebellion has been most commendable. He avowed himself at once to be a thoroughly reconstructed friend of the Union, and a supporter of the Federal supremacy. He gave his prompt adhesion to the Congressional policy, and has fought it out steadily on that line since, in the face of the bitterest social and personal ostracism by nearly every class and section of the South. By appointing Longstreet to this position the Republicans have shown that a vindictive and proscriptive course is no part of their policy.

The *Herald* is much distressed about Nasby, thinks that the Postmaster at Confederate X Roads is a fool, and that the "Radicals" are simpletons for laughing over his productions. It says: "Take the writings of Nasby, and you have the perfect gauge of the Radical intellect." Now it is because Nasby's productions are so perfect a gauge of the average Democratic intellect, that the "Radicals" laugh over them. Their hits are so palpable that any intelligent person can see and appreciate them. Every week the Democratic papers of Oregon furnish arguments very similar to those of Nasby. Only three days ago the *Herald* censured "Radical" editors for their habit of reading, and praised Democratic editors for relying on themselves and never borrowing an idea. Probably there is no Democrat, who embodies in himself all the characteristics of Nasby; but Nasbyism pervades the Democratic party through and through, and to have succeeded so well in giving it expression, as the author of these letters has done, is a feat of invention.

STATE ITEMS.

It is reported that quite a number of people are leaving Southern Oregon for White Pine.

The *Sentinel* urges the farmers of Jackson county to turn their attention more to rearing stock, expressing the belief that this would yield more profit than grain growing.

The Yamhill *Courier* makes a vicious thrust at the *Herald* in the following: The Portland *Herald* says the Democratic press of California is intensely namby pamby. Why don't the *Herald* set them a good example?

In speaking of the *departure of Upton of the Polk County Signal* for White Pine, the Corvallis paper takes occasion to call White Pine "a humbug," and says "some monkeys may get a few chestnuts, but it will be at the expense of some 'cat's paw.'" Is this designed as a compliment for Upton?

The Jacksonville *Sentinel* learns that Mr. Abrams, who was so unfortunate as to lose his leg by the upsetting of the stage north of Canyonville last August is now getting much better. His case has baffled the physicians completely so far, but it seems that Dr. Sharples, of Corvallis, has succeeded in allaying the twitching in the stump of the leg by the use of chloroform, and the patient is now improving rapidly.

A letter from Yaquina Bay to the Corvallis *Gazette* says: "Winant & Co. have purchased the schooner *Lowell Simpson*. She sailed on the 22d, and will touch at Port Orford on her way up. She will bring goods for Wright, Thrasher, and others. Also several families—settlers for the bay. Winant & Co., will build another large schooner at Oysterville during the summer. Other parties are on their way here to enter into the ship building as a business.

From the Salem *Unionist*: The stonemasons are busily employed in laying the stone foundations for Reed's new building. The stone wall is about one-third completed. The size of the building will be sixty by one hundred feet, three stories high, exclusive of the basement; the basement story will be nine feet high. Mr. Reed is driving ahead, and intends to have the building completed by fall. When finished it will be an ornament to the city and a source of profit to the proprietor.

I. A. Flint, of Marion county, furnishes the *Unionist* with an account of the tin mines recently discovered about five miles west of Canyonville, Douglas county. Work on the ledge was commenced about six weeks since, and from that time up to the 21st of March there have been 31 claims taken. A company of seven was incorporated last week for the working of a vein, which is a very large one. Already several tons of ore have been taken out, and there are many more in sight. The ore as assayed in San Francisco is very rich, there being from thirty to fifty per cent. of metal obtained from the ore as taken from the mine. Tin is worth from $550 to $630 per ton.

Of the recommendation made by our Senators for the appointment of Hon. O. Jacobs as Chief Justice of Washington Territory, the Jacksonville *Sentinel* says: There is a feeling of satisfaction, not only among Mr. Jacobs' friends, but among his political opponents, for they know he is deserving of the place and will fill it worthily This is a peculiarly happy selection. Mr. Jacobs will take to the bench legal and scholarly attainments, of the highest order, a philosophical and unimpassioned mind, and a character for sterling integrity that is above suspicion. While regretting to part with one of our most staunch defenders of republican principles, we rejoice at his preferment and hope to see him rise to yet higher distinction

Mr. S. Durbin, says a Salem paper, who took horses to San Francisco from this place, sold them to as good advantage as he expected when he left home. He represents the horse market at the Bay as being very good, though horses do not sell as well as they did a few years since. The season is not far enough advanced to ship horses readily and at large prices. In about three weeks *it is thought sales can be effected at better figures*. There is some prejudice against Oregon horses in San Francisco, which is owing to the fact that dealers have been swindled by purchasing broken down horses, alleged to have been taken from this State. Mr. Lake, of Portland, has made one trip down with horses, and is now in Douglas county purchasing another drove. Hadley, of Eugene City, took down last fall about sixty head, which he has wintered there. He had not sold at the time when Mr. Durbin left. The style of horses which sell to the best advantage are heavy animals for draft horses, or smaller ones for traveling. If a medium sized horse of good shape and fine appearance and can untrained make his mile in four minutes, he can take there, the seller can get a good price. The safest horses for Oregonians to breed are those that will make large draft animals

LAST NIGHT'S DISPATCHES

Congressional

WASHINGTON, April 3.—The Senate Judiciary Committee was instructed to report a bill defining the eight hour law

The House resolution of adjournment was taken up and an amendment fixing the time of adjourn to April 15th was almost unanimously rejected

Mr. Sherman opposed fixing a day for adjournment till Congress disposed of the amendments to the tax law and Indian appropriation bill

Mr Thayer wanted to fix the status of Georgia before adjournment

After some time fixing the 15th as the day of adjournment was adopted and the resolution was passed by 29 to 19.

After a short executive session the Senate adjourned.

The House went into Committee of the Whole to consider the miscellaneous deficiency bill, and after two hours on full half page four the committee reported the bill and amendments to the House. The amendments were adopted and the bill passed. The Senate amendment fixing the time of final adjournment at April 10th was concurred in, and the House adjourned

Washington News.

WASHINGTON, April 3.—In the Senate to day, Sherman, from the Committee on Finance, reported the House bill to amend the supplementary tax law with amendments. The sections relative to tea and coffee are stricken out, and the bill otherwise materially changed.

CHICAGO, April 3. Washington *specials* say the Senate Pacific Railroad Committee, considering the question of fixing the junction of the Pacific roads, has agreed to prepare an amendment giving the President of the United States the power to designate the place of junction, and if he deems it expedient to appoint a board of civilians not interested in any Pacific road to make a thorough examination and report what should be done to make the Pacific roads efficient, and that the bonds are to be withheld in order to carry out the provisions of the law to make the roads first class

The *Republican's* special says the Senate confirmed Longstreet's appointment to day by 25 to 10. Most of the Senators dodged the vote.

Nominations for Office.

WASHINGTON, April 3.—The following nominations were sent to the Senate: Consuls—O M Long, of Illinois, to Panama; Horace H Haughton of Galena, Ill, to Cohasna, and Wm Stedman to Santiago De Cuba. Secretaries of Territories—T M Watkins, Dakota; Edward L. Perkins, New Mexico, Jas. Scott, Washington; W L. Sorbner, Montana. Coles Bashford, Arizona. John A. Campbell, Wyoming. Chas. C. Crowe, New Mexico; John A. Burbank, Dakota, and Alvan Flanders, Washington.

Warren F. Myers is appointed Assessor for Nevada, William H. Moulton Marshal for Idaho, Church Howe Marshal for Wyoming, Joseph M Carr Attorney for Wyoming, John H Howe Chief Justice and W B. Bingham and W. S. Johns Associate Justices for Wyoming. Geo. A French Chief Justice and G. H. Kidder Associate Justice for Dakota

Further Washington News.

WASHINGTON, April 3.—Apprehension exists that a mistake has been made in enrolling the tenure of office bill. So much diversity of opinion exists regarding its construction, that perhaps the bill will be returned to Congress for correction.

The Reconstruction Committee held a long session to day, in which the Texas and Virginia questions were discussed. It is understood that the Committee will report in favor of postponing the election in Texas, and deferring action in the case of Virginia till next session.

Hon. J. B. Allison, the new Register of the Treasury, entered on his duties to day, by order of the President.

The order discontinuing the Department of the Cumberland is revoked, and Gen. George Cooke is assigned to the command of that Department.

General Edward Hatch is relieved from duty in the bureau of freedmen's affairs and ordered to join his regiment in Texas.

NEW YORK, April 3.—Washington specials say the President has decided to sign the tenure of office bill.

J. Lathrop Motley is nominated for Minister to England.

Admiral Hoff has been instructed to demand of the Cuban authorities full reparation, in case he finds the capture of the brig *Mary Lowell* unwarrantable.

Miscellaneous.

NEW YORK, April 3.—One of the Croton water mains at Lexington Avenue, burst last with a loud report. A large opening was made in the street, through which a volume of water a foot in diameter rushed, flooding the streets and filling cellars and basements. Heavy damage was done to foundations of new houses and to furniture in those occupied.

OTTAWA, April 3.—Information has reached the Hudson Bay Company's officers at Montreal, that at a meeting of stockholders called to consider Lord Granville's proposal for compensation of all their claims, the Company had agreed to accept the offer. The Canadians are believed to be on their return home.

KNOXVILLE, April 3.—Andrew Johnson made a speech here to day to a large crowd. The city is filled with his old friends, delegations of whom met him at the cars. He said he intended to devote the remainder of his life, as a private citizen, to the vindication of his official life and native State from the obloquy cast upon them.

West Indies.

HAVANA, April 3.—Porto Rico advices of the 25th say the election of members of the Spanish Cortes is suspended until the cessation of the Cuban revolution. The island is tranquil. Gen. Sauce, as a purely precautionary measure, is organizing a corps of volunteers.

San Domingo advices of the 27th March, report that an American war steamer, coaling in the bay of Samana, caused great excitement throughout the island. The Dominicans are unwilling to part with their territory.

Hayti intelligence says that Gonaives will soon fall into the hands of the revolutionists. Captain Nichols, of the war steamer *Petrel*, has retired from Salnave's service. The *Petrel* is still blockading Aux Cayes.

Aristo Larcho has gone to Washington as Ambassador.

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, April 4.—Lewis and Simon Isaacs, two peddlers from Sacramento, had a fracas yesterday morning at the new Atlantic Hotel in regard to a bill of goods bought by one of them, during which Simon struck Lewis on the temple with his boot heel, cutting several blood vessels, fracturing the skull, and producing hemorrhage which resulted in death at seven o'clock last evening.

Mrs. Oughton, living on Mary street, attempted suicide last Thursday by cutting her throat with a razor and will probably die.

The steamer *John L. Stephens* was seized yesterday in a suit instituted by Collector Ketcham, of the port of Sitka.

The funeral of Judge Brookaway yesterday was largely attended by Odd Fellows, members of the bar and delegations from the neighboring towns The body lay in state at the Odd Fellows' hall, on Montgomery street during the morning

P. J. Malone, official reporter for the 4th District Court, was arrested on a charge of forging three orders on the City and County Treasurer for large sums of money.

The steamer *Constitution* from Panama arrived yesterday morning.

James W. Trump, steward of the ship *Waterloo*, was found dead in his berth yesterday Cause, abscess of the lungs.

Monetary.

Gold—April 3d, 131¾@131¾

New York and Liverpool Market

Flour Dull and unchanged

Wheat—Dull and nominal at $1 60@1 65.

Liverpool—Wheat, 9s 8d.

Shipping

Arrived W A *Rivals*, 12 days from Unalaska bark *Hurricane*, from Teekalet.

Sailed Steamer *Ajax*, for Portland; ship *Pocahontas*, Port Townsend bark *Buena Vista*, Teekalet brig *Ida B. Agnes*, Nicolaefski

FROM THE NORTH.

VICTORIA, April 4 The U S steamship *Saginaw* arrived here yesterday afternoon, 17 days from Sitka, having left that port 15 days after the *John L. Stephens*. The *Saginaw* touched at Fort Wrangle, Simpson and Rupert on her way down. The weather at Sitka was wet and disagreeable. The Indian difficulties seem to have ceased, and everything remains quiet at the different places where the *Saginaw* called since the Indian troubles. The fur trade in Sitka has been entirely suspended, the Indians being afraid to approach the town. So much terror exists among the Hakes since the destruction of their towns that they dare not barter the Indians who murdered the two white men and it is thought that the murderers will be surrendered to the American authorities.

A Raid took place at the Army Club House the evening previous to the *Saginaw's* sailing

The destination of the *Saginaw* is not yet known but she will probably remain in this harbor until orders are received from the Admiral at San Francisco

BY ATLANTIC CABLE.

LONDON, April 2.—The Cunard line will proceed to the construction of two new and fast steamers The contract for carrying the mails between Liverpool and New York is finally awarded to the Cunard line by the Post office Department

MADRID, April 2.—In the Constitutional Cortes, yesterday, in reply to a question, Figurola, Minister of Finance, stated that he had no knowledge that Mr Hale, the American Minister, had ever introduced articles contraband of war under diplomatic privileges, as currently reported. He would, however, inquire into the matter and report the result to the Department. The comments of the press of this city on the story are generally unfavorable to Mr Hale

FLORENCE, April 2.—A conspiracy against the government is discovered at Naples Among the ringleaders is Prestedia.

NEVADA.

VIRGINIA, April 2.—A blast of twenty kegs of *powder was fired in the Sierra Nevada mine, yesterday*, loosening an immense amount of ore, which will greatly facilitate the working of the mine.

The Gould & Curry shaft was freed of water last evening and sinking in the shaft has been resumed.

But one case of small pox is reported in the last 24 hours.

The Sierra Nevada mine turned out over $20,000 in bullion during the last month

The ore struck in the eighty foot level of the Yellow Jacket mine is said to assay from $800 to $900 per ton

The weather is fine, streets are dry and velocipedists are on the rampage.

The amount of bullion shipped during the week ending Thursday night was $146,242 62. Wells, Fargo & Co. shipped last night 1,417 pounds bullion, valued at $38,485 87, and $1,500 of crude bullion for the Sierra Nevada Co. The Pacific Union Co. shipped six bars, valued at $21,857. Total for the day, $75,360 87.

A teamster named John O Harvi, fell off his wagon on the divide, and was killed by the wagon passing over his head

IMPERCEPTIBLE EARTHQUAKES. Geologists tell us that the crust of the earth is subject to a constant lateral pressure, from shrinkage, as is the case in the skin of an apple; and the faults and shidings of rock along its cracks and fissures, as witnessed in mines, are known to exist everywhere underground. It is a very reasonable conclusion that movements of strata past each other may be going on so gradually and regularly as to be ordinarily imperceptible Delicate tests sustain the hypothesis On the 29th of September, last year, in the Astronomical Observatory *near St Petersburg, Russia, a slight, almost* imperceptible movement of the air in the spirit level was noticed, without any apparent cause. Councilor Wagner attributed it to an earth-quake somewhere, and noted the hour and minute of the occurrence. Afterward it was known that at Malta there had been an earthquake at the time, and that the heaviest shock preceded, by several minutes, the observation at Pulkowa. Subsequently the same thing was noticed again, and it was at the same time with an earthquake in Central Asia.

PHOSPHORESCENCE OF THE DIAMOND. The diamond is the only gem which becomes phosphorescent in the dark after long exposure to the sun's rays, or, Boyle says, after steeping in hot water. Dr. Wall, in the "Philosophical Transactions," gives "his infallible method of distinguishing diamonds from other stones. A diamond with an easy, slight friction in the dark with any soft animal substance, as the finger, woolen cloth, or silk, appears luminous in its whole body. Nay, if you keep rubbing for some time, and then expose it to the eye, it will remain so for some time The excessive hardness of the diamond is another extraordinary and superlative quality which sets it apart from most other known substances.

A celebrated divine, who was remarkable in the first period of his ministry for a boisterous mode of preaching, suddenly changed his whole manner in the pulpit, and adopted a mild and dispassionate mode of delivery. Being asked what induced him to make the change he answered: "When I was young, I thought it was the *thunder* that killed the people; but when I grew wiser, I discovered that it was the *lightning*; so I determined in the future to thunder less and lightning more."

INFLUENCE OF THE AGE OF PARENTS ON SEX. Professor Faye, of Norway, has been writing on the influence of the relative ages of the two parents in controling the sex of the offspring. He asserts that when the husband is the senior, boys are in excess; when the ages are equal, the sexes are equal; and when the wife is the older, a majority of the progeny will be girls. If a law is proved by exceptions, we have no doubt of the truth of the doctrine.—*Pacific Medical & Surgical Journal.*

"You are made to be kind, generous and magnanimous," says Horace Mann. "If there is a boy in school who has a club-foot, don't let him know that you ever saw it. If there is a boy in school with ragged clothes, don't talk of rags in his presence. If there is a lame boy in school, assign him some place in the play which does not require much running. If there is a dull one help him get his lessons."

Lady Scott, in one of her novels, tells a touching story of a lady who, being obliged by a sudden alarm of fire to leave her room without having "her body prepared," as the phraselis, could not not be identified by her nearest and dearest friends. Without hair, complexion, teeth, eyebrows, bust, and other artificial continuations and surroundings, she was an absolute stranger to everybody but her maid.

New Britian, Connecticut, is where the Brothers Cheeryble live. Two brothers there owning property together proposed to make a division, and each wrote down what he would do. They were $700 apart on comparing notes, each wishing to give more than he was willing to take. They are in a terrible quarrel about it, and will have to call in Tim Linkinwater to settle it.

An honest farmer was invited to attend a party at the village squire's one evening, where there was music, both vocal and instrumental. On the following day he met one of the guests, who said, "Well, farmer how did you enjoy yourself last night? Were not the quartettes excellent?" "Why, really, Sir, I can't say," said he, "for I didn't taste 'em, but the pork-chops were the finest I ever ate."

The latest defense for crime, on the ground of insanity, is after this style "A man who commits crime is not sane." In the first place, when he does it, he sins against himself; in the second place, he sins against his fellowman, and in the third place, he sins against his Creator and gentleman of the jury no man can do these three things and be a perfectly sane man."

A young lady in the course of a lecture, the other day said "Get married, young men, and be quick about it, too. Don't wait for the millennium, hoping that the girls will turn to angels before you can trust yourself to one of them. A pretty thing you would be alongside of an angel would you not, you brute."

Granite notwithstanding its exceeding hardness, splits as clean and straight as a chest nut stick At one of the granite quarries of Maine, recently, a block was split out which measured 100 feet long, 8 1-2 feet wide and 5 feet thick. It weighed over 300 tons.

THE NEW ADMINISTRATION has filled the various offices, as have HARMAN BROS., filled their spacious store, corner Front and Morrison Streets, with the Latest Styles of Merchant Tailoring Goods consisting of Fine Cassimeres Beaver, Broadcloths and all Kinds of Vestings and a Fine Stock of Ready Made Clothing and Gents Furnishing Goods, which they are enabled to sell at lower than any other House in this city, as their Mr Isaac Harman is constantly in the San Francisco market, purchasing at sheriff's sales, assignees sales, &c., pieces of which their customers can have the benefit. Call and see them—no trouble to show goods.

GREAT EXCITEMENT.—The excitement and hurry of activity at KORN & FISHEL'S yesterday was occasioned by the receipt and opening of a very large and complete stock of Clothing and Furnishing Goods—Spring Styles—purchased and sent up from San Francisco, by Mr Fishel, who is acknowledged to be one of the best judges of that line of goods, being a practical tailor in this city. Call and see the Spring Styles

DEATH TRAPS.—*Adulteration, Sure Death.* The World newspaper has exposed the vast amount of deleterious adulteration of liquors and groceries, but in the long business it is far behind in a *greater* extent, thus producing Death, in consequence of physicians not obtaining the desired results from their remedies. The Drugs and Medicines at the Oregon Dispensary are *fresh* and *pure*, hence all of our *first class Doctors* prefer our stock to any other in this city

DORYEA & KALLENBURG
Oregon Dispensary, 73 First street.

DANCING ACADEMY.—Prof Cardwell's classes are held every week day evening, and on Saturday afternoon for children Hall in Appleton's Building, First street

DISPATCHES TO THE OREGONIAN.

DATES TO APRIL 3.

Congressional.

WASHINGTON, April 2.—In the Senate, Howe, from the Committee on Claims, reported a bill for the settlement of claims for Quartermaster and Commissary stores furnished or taken by the United States within the States in rebellion. It provides that claims must be submitted to the Governor or Commissary General within two years.

Sherman introduced a bill relative to the coinage of gold and silver, with a view to promote a uniform currency among nations. Referred to Committee on Finance.

After the expiration of the morning hour the Indian appropriation bill came up. The principal amendment adopted was one providing for the organization of a board of ten commissioners, to be selected for their intelligence and philanthropy, to supervise and control the disbursements of appropriations for Indian purposes. The commissioners are to have only joint control with the Interior Department under direction of the President. The bill was passed, and after an executive session the Senate adjourned.

In the House the entire session was occupied by a discussion on the Covode contested election case. Finally the whole subject was recommitted.

The bill authorizing the Northern Pacific Railroad to extend a branch line from a point near Portland to Puget Sound, but not to be entitled to any subsidy in bonds or lands, except such land included in the right of way, was passed after the adoption of an amendment requiring at least twenty five miles of the extension to be completed July 1st, 1874, and forty miles yearly thereafter.

Washington News.

WASHINGTON, April 2.—The Senate again today discussed General Longstreet's nomination, without reaching a vote. A Senator who has made a canvass thinks he will be confirmed by six majority.

Commodore T. H. Jenkins has resigned the office of Chief of the Navigation Bureau, and will be assigned to other duties.

Howard, who was to have been relieved by Gen. Hatch, will continue in charge of the Freedmen's Bureau. Hatch will take command of his own regiment.

The House Pacific Railroad Committee, at its session this forenoon, received the rest of the papers required from the Treasury Department relating to the recent issuance of bonds to the Central Pacific Railroad Company. Several documents were read in evidence on both sides, when the committee adjourned till Tuesday to allow time to print the evidence.

CHICAGO, April 3.—The *Tribune's* special says General Stoneman was removed by the express direction of the President, because of his dissatisfaction of his course in Virginia.

The House Committee on Pacific Railroads continue the investigation of the affairs of the Central Pacific Railroad, and make slow progress.

Some members of the House have discovered that the Conference report on the Civil Tenure bill, as presented in the House, differs slightly from that presented in the Senate, and propose introducing a resolution recalling the bill from the White House. Some members say the bill is not what Butler and Bingham represented. This is getting up some feeling in the matter. The President will probably refrain from signing the bill till the motion for a recall is acted on.

The Pacific Railroad Squabble.

NEW YORK, April 2.—By order of Judge Barnard, Wm. M. Tweed, Jr., was appointed by the Judge to come to the office of the Union Pacific Railroad, accompanied by Sheriff O'Brien's deputies, without other opposition than a warning to leave, on pain of being prosecuted civilly and criminally. He then proceeded to break open the safe, what books were found were taken before A. A. Redfield, who was appointed referee by Judge Barnard. Simultaneously with the proceedings an attempt was made directly to shake the credit of the company by the circulation of rumors that their paper has gone to protest, which is false. These transactions have no effect on the building operations of the road.

The difficulty between Fisk and the Union Pacific Company commenced in the fall of 1847, when Fisk and other parties who desired to control the election of directors tendered a subscription of $15,000,000 of stock, on which they offered to pay fifty-five cents on the dollar, which not being in accordance and with the terms of the charter, was refused. Fisk afterwards bought six shares at par, amounting to $600, which is the entire amount of his interest in the company.

The clipper ship *Baltic* was seized yesterday for violation of the passenger act. She was formerly a steamer on the Baltic, and was bound for San Francisco. She gave over $30,000 bonds and was permitted to proceed to-day.

Among the books found in the safe of the Union Pacific Co. was a stock ledger of the credit mobilier in which the following names appear: Thomas C. Durant, Geo. F. Train, C. M. Hall, O. W. Barnes, L. E. French and G. T. M. Daly.

A. W. Clapp, recently elected public printer, has sold his own and son's interest in the Buffalo *Express* to a former partner.

ST. LOUIS, April 2.—The Board of Directors of the Pacific Railroad was elected to-day. J. Lucas was elected President, D. R. Garrison, Vice President, J. Holter, Secretary and Treasurer, J. M. Cooper, Auditor.

Miscellaneous.

PORTSMOUTH, April 2.—Orders have been received at the navy yard reducing the wages of all per diem workmen twenty per cent. from last month's rates.

RICHMOND, April 2.—Gen. A. S. Webb assumed command to-day, and issued an order reinstating Governor Wells.

NEW ORLEANS, April 2.—General Buchanan yesterday relinquished the command of the department to General Mower. The District of Louisiana is discontinued.

Nearly the entire business portion of Rodway, Mississippi, was burned on the night of the 31st ult; loss, $200,000.

NEW YORK, April 3.—Michael Cobby was arraigned before Justice Downing yesterday on a charge of suborning and perjury in inducing several persons to swear to having illegally voted the Democratic ticket at the last election before the Legislative investigating committee. Several affidavits were read implicating also Marshal Murray.

There is an immense rush of office-seekers at the custom-house. The Collector informed visitors that veterans of the army and navy would have the preference, but no man would be discharged who has been capable, honest and faithful.

PHILADELPHIA, April 3.—Twitchell made a confession to Rev. Mr. Bringhwest. He declares that on the night of the murder his wife awoke him stating that she had killed her mother in a quarrel. Both then went to the room where she lay dead, and threw the body out of the window. It is said that Mrs. Twitchell recently requested the exclusion of the reporters from her husband until after the execution. She left the city this morning.

Indian Matters.

ST. LOUIS, April 2.—A long report was received at the military headquarters to-day defining the operations of General Custar. It concludes by saying: "We have taught the Indians that they are nowhere, in no season, safe from us. The hiding places of the Indians are known well. Custar holds two Cheyenne chiefs as hostages for the good behavior of their tribe and fulfilling of promises to come in and conform to the demands of the Government. This Custar thinks is the end of the Indian war."

Nominations by the President.

WASHINGTON, April 2.—The President sent in a large number of nominations to the Senate today, mostly revenue officers, collectors, etc. Among the number was Wilson Bowlby, for Collector of Internal Revenue in Oregon; S. B. Davis, for Assessor in New Mexico; O. S. Strickland, for Associate Justice in Utah; Thos. B. Rickey, for Postmaster at Salem, Oregon; D. O. Atkinson, Postmaster at Virginia City, Nevada; D. A. Lockett, Postmaster at Petaluma, California; Richard M. Stephens, Postmaster at Santa Fe.

The Tenure Bill.

CHICAGO, April 3.—The President hesitates to sign and will probably veto the tenure bill because it was hastily passed, and in such doubtful phraseology that members of Congress contest its interpretation, while jurists believe it restores the suspended officers.

Appointments Decided On.

CHICAGO, April 2.—A *Republican* special tonight says the following territorial appointments were decided on in a cabinet meeting to-day, to be sent to the Senate very soon. General J. Campbell, for Governor of Wyoming. Jame M. Ashley, for Governor of Montana. H. D. Washburne, of Indiana, for Surveyor General of Montana. Col. Ingers, for Surveyor General of Wyoming. Dr. Rush Spencer of New York, for Surveyor General of New Mexico. Clarke, of Ohio, for Register of Lands in Washington Territory. Dr. Scott, of Ohio, for Secretary of Washington Territory. Frank Wolcott of Kentucky, for Register of Lands in Wyoming.

Mexico, South America and West Indies.

HAVANA, April 2.—Advices from Mexico to the 27th ult. report that Col. Myer, who was arrested on a charge of conspiracy against the Mexican Government, is to be banished the country.

An accident recently occurred on the railroad, by which eight soldiers were killed and thirteen wounded.

Executions without trial still continue in Yucatan.

An order by Governor Cedellos for the sale of Mexican territory to the United States was agitated in the Capital and found many supporters.

Private letters from Mexico accuse Leodora De Tejada of hostility to the Americans and of defrauding the Mexican Government.

The *Herald's* Havana dispatch of March 30th, via Key West, says the steamer *Montezuma* is in possession of the Dominican rebels. She was at Kingston on Sunday. Hollister, the United States representative at Hayti, denounced her as a pirate. She carried munitions of war for San Marco. She intends to return to Hayti, hoist the revolutionary flag, and attack the naval forces of Salnave. Gregg, the American Consul at Jamaica, was carefully watching these movements.

Vernon, the British Minister at Port au Prince, has made a report to his Government, complaining that the agents of Salnave have examined mails and letters, and the information thus obtained has occasioned many arrests, and on two occasions two British men of war had gone to Port au Prince to demand reparation. It is probable that serious results may ensue.

Innocencia Casanova, a citizen of the United States, has been arrested on suspicion of complicity in a plot for the seizure of the steamer Commandaterio.

The United States steamer *Narragansett* has sailed for Key West to coal up, and will return in a few days.

A gang of negroes on the Mannelito Plantation, near Cienfuegos, have joined the rebels. Troops are pursuing them.

NEW YORK, April 3.—The *Herald* Havana special's telegraphic dates from the city of Mexico are to the 26th, and say it is rumored that Romero will go to Washington as one of the Commissioners under the treaty for the settlement of claims. Guiterrez, a bandit chief, had escaped from prison.

General Serga was to replace Caballos as Governor of Yucatan. The latter has ordered provision to be made for the accommodation of refugees from Cuba.

HAVANA, April 3.—A Committee from Mantanzas arrived last evening, demanding an important State prisoner, who was sent here by the Governor of Mantanzas. The prisoner goes back to Mantanzas for trial.

The *Prensa* says the steamer *Commandaterio* was supplied with guns, ammunition and coal off Bahama, but did not enter Nassau.

BY ATLANTIC CABLE.

LONDON, April 2.—An explosion occurred at the Orly colliery, Lancashire, by which twenty-eight persons were killed.

MADRID, April 2.—The Constitution proposes a hereditary monarchy.

Serrano told the Cortes that orders for the Cuban insurrection had been sent, and deputies from thence were expected shortly.

Troops are going to the Pyrenees to prevent parties of Carlists from crossing the frontier into Spain.

CONSTANTINOPLE, April 2.—The difficulties on the Persian borders are in a fair way to be settled. The Porte has agreed with the Persian Government to refer the rectification of the frontier to a mixed commission of Turkish and Persian subjects.

LONDON, April 3.—The Prince of Wales has arrived at Constantinople. The Sultan received him with great splendor.

A Demogogue Trick

[From the San Francisco Bulletin.]

Congressman Johnson, of California, introduced a resolution, a day or two since, declaring that the Fifteenth Amendment was not intended to permit Chinese to vote. The House promptly refused to consider the resolution, whereupon the Democratic press of this city exclaim: There, we told you so! The amendment is intended to confer the suffrage on Chinese, and every person who in any manner supports it or acts with the party which advocates it, is "in favor of admitting to the ballot-box all the Chinese who are now in this State or who may hereafter come to this country." That is what the lawyers would call a *non sequitur*, in other words the conclusion is not logically deducible from the premises. Johnson's resolution, offered long after the amendment had left Congress and been acted upon by several State Legislatures, was meant to serve a purely partisan and demagogue purpose. Its author knew it would be rejected, and counted upon its rejection to make a little cheap political notoriety for himself in California and to furnish his party here with a weapon of attack in the coming State election. He knew it would be rejected because Congress had already fully discussed and determined the very question it raised, and had determined it against Mongolian suffrage; but he counted upon the ignorance and prejudice of a part of his constituents for the political gain desired.

Every intelligent person knows that the meaning and force of the constitutional amendment are not to be decided by a simple resolution after it has gone to the country for ratification. They are to be sought in the language of the instrument itself. This admits only citizens to the privilege of the ballot, Chinese are not citizens, their naturalization is prohibited by law, Congress has refused to amend the law in their favor, and the highest branch of Congress inserted in the treaty with China a clause expressly preventing any claim for naturalization on the ground of treaty obligation. After all this, the National House of Representatives would have been trifling with its own dignity to have passed a supererogatory resolution offered by an obscure demogogue with a transparently sinister purpose.

It is unworthy of journals which assume to be popular instructors to endorse such a cheap trick and attempt to mislead the public mind on an important question. The Fifteenth Amendment is a measure which ought to be discussed on its merits irrespective of partisan prejudices. The question it presents is simply whether it is wise or unwise to put into the fundamental law of the Republic a provision placing the elective franchise on a basis of impartiality among all citizens, and permitting its regulation by a test that will operate to exclude only the criminal, the ignorant, the vile or the insane. The Chinese are not to be considered in the case, because they are not, and cannot be citizens, even if they wished to be. It is simple dishonesty to drag them into the controversy.

RAILROAD SUBSIDIES.—The New York *Tribune* 24th ultimo, remarks:

The "Railroad Subsidy" question resolves itself into this single point, and we trust that Congress will not lose sight of it in the present discussions. We made a bargain with a corporation called itself "The Union Pacific Railroad Company, and many composed of Eastern capitalists, and with a corporation named "The Central Pacific Railroad Company," composed of Western capitalists. The bargain was made blindly, and without much knowledge of the country through which the road was to pass. We have kept to it. We want to know much the Union and Central Pacific Railroad cost. How much has been paid by the Union Pacific to an organization called the "Credit Mobilier?" Who are the stockholders of the Credit Mobilier? What members of Congress directly or indirectly connected with its operations? What assurance have we that in granting any new subsidy we don't create a new Credit Mobilier, and enable its stockholders to amass large fortunes out of the Government.

Eastern Gleanings.

From New York Papers, March 15.

Judge Hoar is the third Attorney General from Massachusetts. Levi Lincoln (father of the Governor) served in Jefferson's Cabinet during his first term, and Caleb Cushing was Attorney General through the Presidency of Franklin Pierce. Theophilus Parsons was invited to the position by John Adams, but declined.

Donn Piatt writes: The other day General Grant said to Mr. Slade, of Ohio, I believe, that he would consider a nomination by Mr. Johnson in the last hours of his administration as positive evidence that the nominee was unfit for the place, and if the Senate confirmed such nomination, he, Grant, would do all in his power to turn him out.

The New York *Tribune* says: In the great contest between Mr. Director Delmar and Mr. Commissioner Wells for the Secretaryship of the Treasury, each destroyed the chances of the other. The fighting was beautiful; the gouging was never excelled; but in the end they made a Kilkenny cat performance of it, and only a small bit of the tip of the tail of each can now be seen.

What was the color of the gloves worn by General Grant at his inauguration? The correspondent of the *Herald* says he wore corn-colored kid gloves; the correspondent of the *World* says he wore canary colored kid gloves; the correspondent of the *Times* says he wore straw colored kid gloves; the correspondent of the *Tribune* gives no information on the point—probably because the new constitutional amendment forbids all discriminations of color."

An official order was lately issued in England warning the Government clerks not to waste their quill pens, but to mend them till they were worn down to the stump. Grant's last military order before assuming the Presidency, was upon an equally minute point of economy. It directs military functionaries to "bear in mind that there is hardly any species of materials, however worn, which cannot be put to some use. Old linen, cotton, wool, iron, etc., can all be worked up in some new form, and wood can be used as fuel."

Ex-Johnson had become so accustomed to pocketing the acts of Congress passed during his administration, that he incontinently gobbled all the records in hand on his departure from the White House. How much of the fraudulent pardon business this act was designed to conceal, the public must be left to guess. Had some of those papers been left behind, perhaps the history of Mrs. Cobb might have been more cleverly written than it has been.

The letter of Commissioner Rollins, asking for Binckley's dismissal, says: Mr. John M. Binckley was appointed Solicitor in August last. On the 2d day of the following month I requested his removal upon the ground that he was a willful perjurer, or so weak and credulous as to be made the convenient tool of corrupt and malicious men. Not having changed my opinion of him since that time, I have assigned him no duty whatever, and for the last five months I do not know that he has even ostensibly done a single hour's labor for the Government. I have repeatedly urged his removal, and he has repeatedly drawn his monthly salary at the rate of $4,000 per annum. Mr. Binckley is notoriously unqualified for his place. I do not know that he even claims to be a lawyer. Certain it is he never undertook to practice law, and the farce of his employment as Solicitor of Internal Revenue I do not believe should be continued under under the present administration. This fellow was of Johnson's special pets.

Don Piatt has his say about political prayers: "I never hear this sort of thing that I am not reminded of little Choptanks, as we used to call him up the Mac-a-check, who had his wife and child arrested for assaulting him with a fire-shovel while at his devotions. It was an aggravated case. But Mrs. Choptanks asked to be heard, and she said that little Choppy 'didn't dare to give her any of his sars in his talk; but he abused her in his prayer, and on this
